Eikon Bubble 'Marble' with oak wood

DESIGN

Eikon Bubble is a minimalist lamp made of certified wood and a coloured silicon lampshade. The wooden base and the coloured shade are a perfect match for many home and interior design applications.

With its translucent silicone lampshade the Eikon Bubble introduces a new aesthetic and soft quality of light to the Eikon collection. The magnetic connecting system allows the lampshade to be easily changed for another color, shape or material of the Eikon collection.
