Junit curated versions - Drop | Crescent | Mentis | Record | Column

DESIGN

The Junit light is a modular pendant lamp that consists of eight different elements in a natural finish, each shape in different colors. With the remarkable large selection of minimalist forms for the creation of their own, perfect lighting, both elegant and sophisticated variants as well as colorful and playful versions can emerge. As a single expressive lighting or set up in a striking group of different combinations, the Junit lamp provides endless interior possibilities and can be used in a domestic environment and in contract projects of public spaces.

The bulb complements the colorful lamp with its oversized, milky glass which produces warm, ambient light. To complete the individual look of the lamp, the user can choose from eight different textile cable colors.

PRODUCTION PROCESS

The elements are turned from high-quality ash wood and painted in a german workshop.

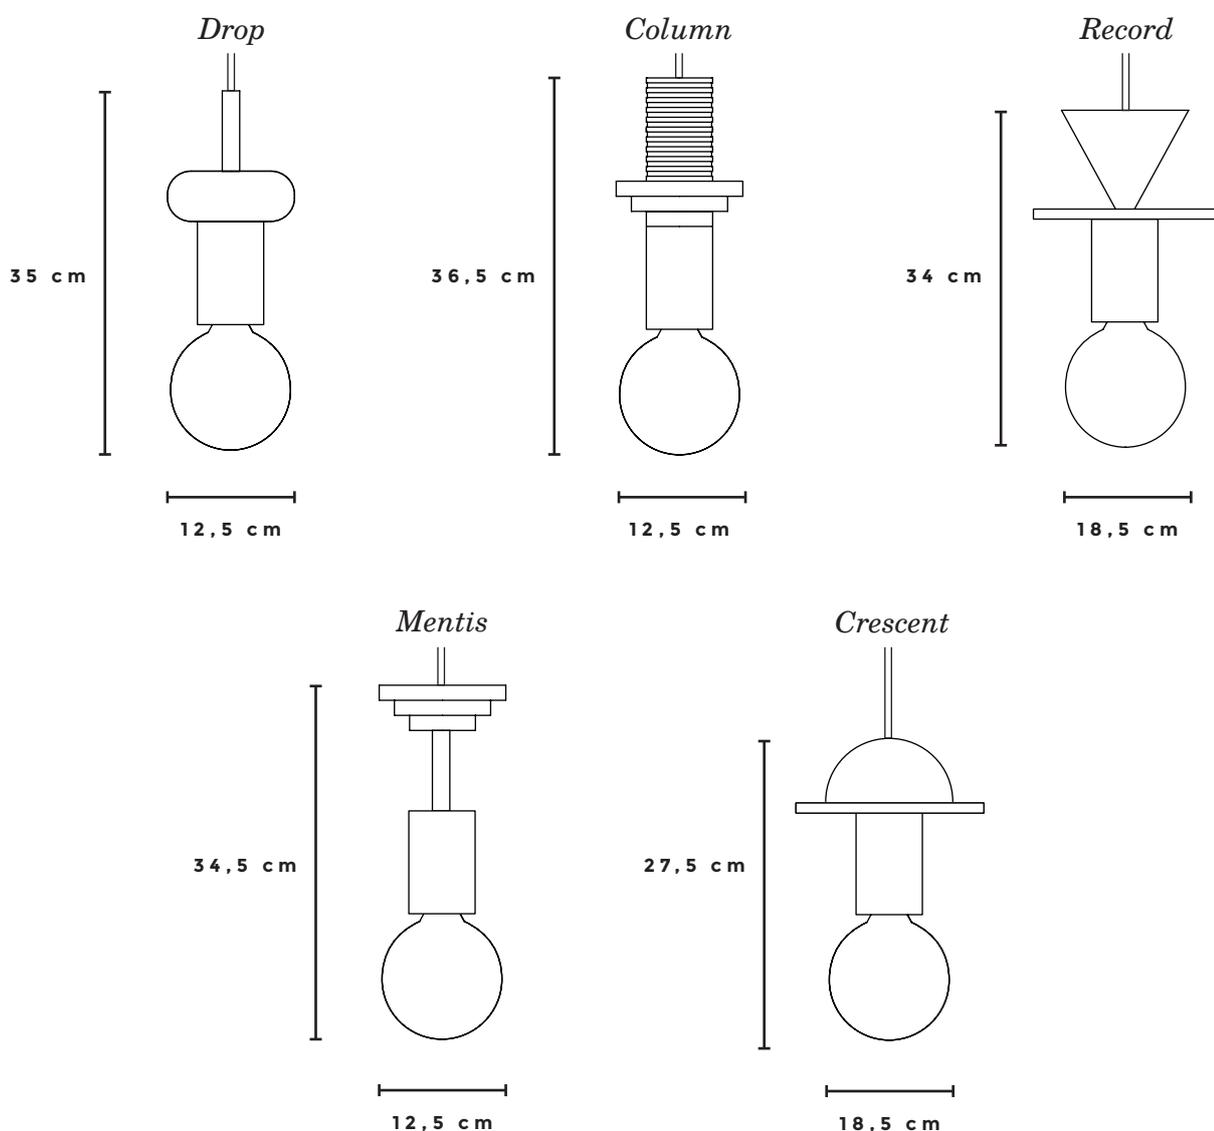

TYPE | ENVIRONMENT

Pendant lamp | indoor

MATERIAL

Ash wood

CURATED VERSIONS

DIMENSIONS | WEIGHT | ELEMENTS (COLOR)
